#Technologies

LYNK web services may use cookies, SDKs, local storage and similar technologies. Essential technologies support authentication, security, preferences and core operation and cannot always be disabled.

#Categories

Optional categories include analytics, performance, advertising and personalization. They help measure use, diagnose failures, tailor experiences or measure campaigns. Current deployments must be reflected in the consent interface before activation.

#Consent controls

Where required, optional technologies remain off until consent. Users can accept, reject or change categories with equal ease through Cookie Settings. Withdrawal does not affect prior lawful processing.

#Third parties and duration

Approved providers may set or read identifiers according to their notices and contracts. Lifetimes must be documented in the live cookie inventory and limited to what is necessary.

#Privacy and compliance baseline

Nexa applies data minimization, purpose limitation, accuracy, security, accountability and privacy-by-design. This document is intended to align with applicable GDPR principles, Canadas PIPEDA fair-information principles, the African Union Malabo Convention and applicable DRC law; mandatory local rights prevail.

#Contact and changes

Questions, rights requests and complaints may be sent using the contacts below. Material changes will receive reasonable notice where required. The version and dates above identify the controlling edition. Translations are intended to be equivalent; if an inconsistency cannot be resolved, the French edition controls, subject to mandatory law.
