#Data we process

We process account data (name, email, phone), profile data (bio, photos, interests), relationship data (matches, chats, referrals), verification data (identity documents, selfies, liveness and review results), safety reports, device and usage data, and future financial data (wallet entries, subscriptions, gifts and transaction references). Crypto data may include Pi wallet addresses and public blockchain references. Mobile-money data may be exchanged with PawaPay, CinetPay or future providers only when those features are enabled.

#Purposes and legal bases

We use data to provide and secure LYNK, match and connect users, verify identity and age, moderate abuse, prevent fraud, meet legal duties, process requested services, improve performance and with consent send marketing. Bases include contract, legal obligation, legitimate interests, vital interests and consent, as applicable.

#Sharing and international transfers

Data may be shared with vetted processors such as hosting, security, communications, analytics, error-monitoring, identity-verification and future payment providers. Examples may include AWS, Cloudflare, Firebase, PostHog, Sentry, PawaPay and CinetPay. International transfers use adequacy decisions, Standard Contractual Clauses, contractual safeguards, security measures and transfer-risk review where required.

#Your rights

Subject to GDPR, PIPEDA, the Malabo Convention and applicable law, you may request access, rectification, deletion, restriction, portability, objection, consent withdrawal and review of certain automated decisions. You may complain to a competent supervisory authority. We verify requesters and normally respond within legally required periods.

#Security and retention

We use access controls, encryption in transit, logging, minimization and incident procedures. No system is perfectly secure. Retention follows the Data Retention Policy; deletion may be delayed for safety, fraud prevention, disputes, financial records, backups or legal holds.

#Privacy and compliance baseline

Nexa applies data minimization, purpose limitation, accuracy, security, accountability and privacy-by-design. This document is intended to align with applicable GDPR principles, Canadas PIPEDA fair-information principles, the African Union Malabo Convention and applicable DRC law; mandatory local rights prevail.

#Contact and changes

Questions, rights requests and complaints may be sent using the contacts below. Material changes will receive reasonable notice where required. The version and dates above identify the controlling edition. Translations are intended to be equivalent; if an inconsistency cannot be resolved, the French edition controls, subject to mandatory law.
