#Deactivate or delete

Deactivation temporarily hides or limits an account where offered. Deletion starts permanent account closure. Before deletion, users should download their data and resolve subscriptions, disputes or balances.

#Protected flow

The flow requires password verification, a consequences notice, an export option and explicit confirmation. A 30-day grace period begins after confirmation; users may cancel during that period by authenticating.

#After the grace period

At expiry, the account is queued for deletion or irreversible de-identification. Some records remain where required for safety, fraud prevention, financial compliance, legal claims or lawful requests. Messages already delivered may remain in another members conversation history with attribution reduced where feasible.

#Rights and timing

Deletion requests are logged and handled within applicable legal timeframes. Identity verification may be required. If deletion is refused or limited, we will explain the lawful reason where permitted.

#Privacy and compliance baseline

Nexa applies data minimization, purpose limitation, accuracy, security, accountability and privacy-by-design. This document is intended to align with applicable GDPR principles, Canadas PIPEDA fair-information principles, the African Union Malabo Convention and applicable DRC law; mandatory local rights prevail.

#Contact and changes

Questions, rights requests and complaints may be sent using the contacts below. Material changes will receive reasonable notice where required. The version and dates above identify the controlling edition. Translations are intended to be equivalent; if an inconsistency cannot be resolved, the French edition controls, subject to mandatory law.
