#Accepted documents

Depending on country and risk, accepted government documents may include a passport, national identity card or driver license. Documents must be valid, legible, unaltered and belong to the applicant.

#Verification flow

The flow may include upload, data extraction, authenticity checks, sanctions or risk screening, manual or automated review, approval, rejection or a request for more information. Approval does not guarantee another users conduct or eliminate fraud risk.

#Selfie and liveness

Selfies, facial comparison and liveness signals may be used to confirm presence, document ownership and prevent duplicate or fraudulent accounts. Where biometric rules apply, we seek required consent or another valid basis and limit access and retention.

#Fairness and appeals

Automated indicators support not replace where prohibited appropriate human review. Users may challenge a rejection and submit corrected documents. We monitor quality and avoid using verification data for unrelated advertising.

#Privacy and compliance baseline

Nexa applies data minimization, purpose limitation, accuracy, security, accountability and privacy-by-design. This document is intended to align with applicable GDPR principles, Canadas PIPEDA fair-information principles, the African Union Malabo Convention and applicable DRC law; mandatory local rights prevail.

#Contact and changes

Questions, rights requests and complaints may be sent using the contacts below. Material changes will receive reasonable notice where required. The version and dates above identify the controlling edition. Translations are intended to be equivalent; if an inconsistency cannot be resolved, the French edition controls, subject to mandatory law.
