#Safety controls

Members can report users or content, block contact and access safety guidance. Reports are triaged according to severity, credibility, recency and potential harm.

#Moderation and investigation

Authorized reviewers may examine reports, relevant account records and limited communications necessary to investigate. We apply least-privilege access, confidentiality and audit logging.

#Emergency and external help

LYNK is not an emergency service. For immediate danger, contact local emergency services. We may preserve or disclose information where law permits and there is a good-faith emergency involving danger of death or serious physical injury.

#Appeals

Users may appeal eligible enforcement decisions with context or new evidence. A reviewer not responsible for the original decision should assess the appeal where practicable.

#Privacy and compliance baseline

Nexa applies data minimization, purpose limitation, accuracy, security, accountability and privacy-by-design. This document is intended to align with applicable GDPR principles, Canadas PIPEDA fair-information principles, the African Union Malabo Convention and applicable DRC law; mandatory local rights prevail.

#Contact and changes

Questions, rights requests and complaints may be sent using the contacts below. Material changes will receive reasonable notice where required. The version and dates above identify the controlling edition. Translations are intended to be equivalent; if an inconsistency cannot be resolved, the French edition controls, subject to mandatory law.
