#Scope and launch condition

These terms anticipate future wallet, gift, subscription, mobile-money and crypto features. They do not announce availability or integrate a provider. Feature-specific disclosures, fees and confirmations will be presented before use.

#Balances and transactions

A displayed balance may distinguish rewards, gifts, premium credits and payment funds. Some units may be promotional, non-transferable, non-withdrawable or expire where law permits. Records may be corrected for error, reversal, fraud or chargeback.

#Mobile money and providers

When enabled, transactions may be handled by regulated third parties such as PawaPay, CinetPay or future providers under their own terms, limits, KYC and processing times. Nexa does not hold itself out as a bank unless separately licensed.

#Crypto and Pi Network

Crypto transactions may be volatile, irreversible and exposed to blockchain congestion, forks, smart-contract defects, wallet compromise, lost keys, protocol changes and regulatory action. Verify addresses and amounts. Pi Network services depend on the relevant ecosystem and are not guaranteed by Nexa.

#Subscriptions, refunds and chargebacks

Prices, renewal, cancellation and taxes will be shown at purchase. Refunds follow mandatory law and the disclosed offer. Users must contact support before an improper chargeback. We may pause transactions and request information to prevent fraud.

#Privacy and compliance baseline

Nexa applies data minimization, purpose limitation, accuracy, security, accountability and privacy-by-design. This document is intended to align with applicable GDPR principles, Canadas PIPEDA fair-information principles, the African Union Malabo Convention and applicable DRC law; mandatory local rights prevail.

#Contact and changes

Questions, rights requests and complaints may be sent using the contacts below. Material changes will receive reasonable notice where required. The version and dates above identify the controlling edition. Translations are intended to be equivalent; if an inconsistency cannot be resolved, the French edition controls, subject to mandatory law.
